The TALLEAS composite panel combines **maximum stability with sustainable cost efficiency**. Its high quality plastic composite construction ensures exceptional durability. At the same time, TALLEAS is **100% recyclable** and can be fully reprocessed into new panels.

Does more.

-  **Extremely long service life**
thanks to its high-quality 5-layer construction.
-  **Consistent concrete finishes**
thanks to its rough surface right from the start.
-  **Moisture resistance**
ensures that there is no swelling or rippling.
-  **Easy handling**
for machining, cleaning and repairs.
-  **Reduced carbon footprint**
by being made from 100% recycled core material.

Costs less.

-  **Fewer replacement purchases**
thanks to a longer service life.
-  **Minimized remedial work**
thanks to a consistently high quality concrete finishes.
-  **Low refurbishment costs**
due to its high durability and quicker repairs.
-  **A smart investment**
thanks to its reliable performance.
-  **End of life resale potential**
through recycling into new panels.
