

Form-on smartPROPplus 20

With hole numbering
for efficient working

Energy-saving due to
low weight

Long service life thanks
to galvanisation

Consistently high load
capacity of at least 20 kN
at any extension length

Form-on

Form-on smartPROPplus 20

Your advantages:

-  Effortless and fast working thanks to its low weight.
-  Retaining its value thanks to high-quality manufacturing and galvanisation.
-  Quick and safe release of the clamped prop through optimised thread pitch.
-  Safe working thanks to anti-drop-out latch and crush guard.
-  Reliability in many applications due to forged nut and 8 mm head and foot plate.

Form-on smartPROPplus 20

kN/length (cm)	Length (cm)	P.U.	kg	Art. no.
20 550	298 - 550	30	32.5	620007000

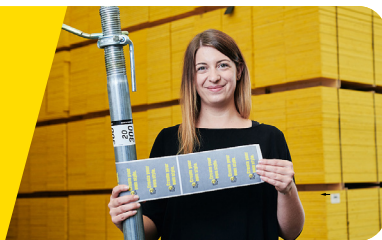

Quick and easy height adjustment thanks to numbered and engraved pegging holes.

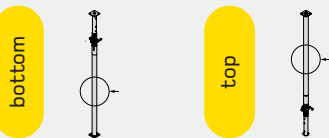

TECHNICAL DATA

Certificate: Z-8.311-946
Load capacity: min. 20 kN for any extension length up to 36.7 kN depending on extension length
Standard: EN1065 class C/D

With your individual branding!

POSITION
OUTER TUBE

TIP: Increased load capacity by flipping the prop used upside down.

Prop length (m)

C/D 550
